

How to make... a Hedgehog and a Hedghog House

By Alex Milledge
Suitable for ages 6-9

If you loved watching *Feels Like Home*, why not make your own Hattie the hedgehog and a cosy hedgehog house for them to snuggle down into this winter. You can go on an adventure to collect some colourful leaves and the very best sticks outside. Don't forget a nice bright sign to keep the humans out!

Step 7:

Now you have your scene and characters and your box is decorated.

It's time to shine the light behind and add your characters.

You can add them by holding the sticks and slotting them in the top of the box. You can play with moving them around, making voices for the characters.

You can also play with the light, maybe shine it through a bottle of water to make the light shimmer. You can also play with the colour of the light.

Simply put the torch behind the box like in the picture across and watch the box light up.

Have fun!
