

How to make... a grub puppet

By Ross MacKay

Suitable for ages 7 - 11 independently working

Suitable for ages 3 - 6 with adult help

You will need:

- Banana
- Apple
- 2 grapes
- Orange
- 3 cocktail sticks
- 1 kebab skewer
- Knife

Instructions

Step 1:

Cut the grapes in half and stick a cocktail stick into each one so that the pointy ends are sticking out. Cut out or tear a piece of orange skin to make a mouth, pierce this with a cocktail stick as well.

How to make... a grub puppet

Step 2:

Use the cocktail sticks to stick the grapes and orange skin onto an apple, in the shape of a face. Stick this onto the top of a kebab skewer. If you want you can use some orange skin to make some hair as well.

Step 3:

Peel a banana so it has four parts. These will make the arms and legs of your puppet. Stick them onto the kebab skewer underneath the apple. Slide the rest of the grape up behind them. This will help the banana skin stay in place and not slip down the skewer.

How to make... a grub puppet

Step 4:

Pierce the two outer banana flaps - these will become your arms.

Step 5:

Hold the puppet with the skewers and have fun making them dance and play. When you are finished with the puppet then you can eat them up!

Top tip:

You can use all kinds of fruit to make different faces and hairstyles. Go wild and have fun.
