

How to make... a munching sock puppet

By Tinka Slavicek
Suitable for ages 3 - 6

You will need:

- One sock - the thicker the better
- Two buttons/pom-poms/pieces of felt or fabric for the eyes
- Two wooden clothes pegs for the ears
- Needle and thread or glue to stick the eyes on (UHU or glue gun)
- Some toy food or odd little things you can collect around the house to feed your puppet with

How to make... a munching sock puppet

Instructions

Step 1:

Put the sock on your hand. The knuckles of your hand should be positioned in the heel of the sock.

To make the puppet's mouth, tuck the toe end of the sock into your hand – with your fingers making the top of the jaw and your thumb making the bottom of the jaw.

Step 2:

Clip the clothes pegs onto the heel part of the sock to make the ears.

Glue or sew on your eyes.

Your munching sock puppet is finished - yum, yum!
Munching socks love to nibble on almost anything, including wool, string, grass and children's fingers!
